# A Complete Line for every lifting need

The *Reliable* line is comprehensive — a special jack for every specific lifting need.

*Reliable* jacks are the original balloon tire jacks, made especially for use with this type of tire.

They require absolutely no hand adjustment. The inner screw is actuated entirely by the long handle control. This obviates the necessity of reaching under car to bring inner screw up to contact with axle.

**No. 7**
**WONDERFUL VALUE**
A powerful jack. 10 inch lift. 2 tons capacity. A popular seller. Equal to any emergency.

**Beware of inferior imitations put out by unscrupulous manufacturers who seek to delude the buyer by painting their product in a similar color to our established and distinctive red. For stamina and dependability, insist on RELIABLES.**
